

Statement of support for the Women's march on Washington <https://CaliforniaNational.party>

Donald Trump's presidency poses a direct threat to the lives and livelihoods of Californian women and must be opposed at every opportunity. The California National Party (CNP) believes that women's rights are human rights and are non-negotiable. They must never be used as bargaining chips or held hostage by political trends.

One fundamental aspect of these human rights is the clear right of each individual to manage his or her fertility, regardless of the individual's income, marital status, race, ethnicity, sexual orientation, age, national origin, or residence.

Reproductive freedom lies at the heart of the promise of human dignity, self-determination and equality embodied in the California Reproductive Privacy Act, the Universal Declaration of Human Rights, and the U.S. Constitution. We believe that reproductive self-determination must be voluntary, must be without coercion or discrimination, and must preserve the individual's right to privacy. We further believe that such self-determination will contribute to an enhancement of the quality of life and strong family relationships for all Californians.

Finally, we believe that the single best way to protect the rights of Californian women is to make California a separate and independent nation, free from the influence of America's "red" states, states which currently have a disproportionate influence in national policy-making.

We are proud to support the Women's March and are dedicated to defending the rights of Californian women now and in the future.

CALIFORNIA NATIONAL PARTY
